

# HUMP DAY HIGHLIGHTS

*A WEEKLY RECAP OF TANZU CONTENT - 3/1/23*

## **Top 5**

(for those that prefer a synopsis)

- As part of the Golden Paths to SpringOne video series, Microsoft's Brian Benz shows how to **deploy Spring Boot apps to Kubernetes with GitHub** actions and feature flags. [Watch the video](#)
- Scott Steele wrote about **configurations in multiple environments** and how to find a promotion strategy for moving config between environments—and he managed to kick it off with a Prince reference, which automatically makes this the coolest blog of the list. [Read the blog](#)
- In this episode of Enlightning, Whitney Lee and Ashley Davis explore how cert-manager works, and **what the cert-manager project is doing to improve security** and promote safe automation of other certificate-related tasks. [Watch the video](#)
- Christian Tzolov wrote about **Microsoft Azure integrations with Spring Cloud Function**. [Read the blog](#)
- Ed Byford presented this webinar about the **beta of VMware RabbitMQ as a service**, including why it was developed and its future road map. [Watch the webinar](#)

## **Additional articles**

(for those that would like to know more)

- In this video, Thomas Vitale homes in on **Spring Cloud Gateway**, which provides an effective way to route traffic to your APIs and address cross-cutting concerns. [Watch the video](#)

- On this episode of A Bootiful Podcast, Josh Long talks with Atlanta JUG, Devnexus, Spring Cloud Task, Spring Integration, Spring Cloud Dataflow luminary Glenn Renfro. [Listen to the podcast](#)
- This blog post from Sébastien Deleuze celebrates Spring Native's graduation to **Spring Boot 3 native support**. [Read the blog](#)
- Josh Long wrote this weekly roundup of **Spring news**. [Read the blog](#)
