# HUMP DAY HIGHLIGHTS

*A WEEKLY RECAP OF TANZU CONTENT - 3/22/23*

## **Top 5**

(for those that prefer a synopsis)

- Rita Manachi moderated this talk with Forrester's Charles Betz and Great American Insurance Company's Jim Kohl about the **importance of platform engineering** and how to get started building a platform team. [Watch the webinar replay](#)
- For this delightful episode of Tanzu Talk, Cora Iberkleid and Coté chat with Parth Pandit and Rob Hardt about their new ebook, **DevSecOps in Practice with VMware Tanzu**, all about Tanzu products and processes. [Listen to the podcast](#) or [watch the video version](#)
- Learn about **new features in Tanzu Mission Control**, including support for Terraform, cluster group configuration via continuous delivery, and Helm charts on private Git repositories in this blog post by Corey Dinkens, Sneha Narang, Carol Pereira, and Lauren Britton. [Read the blog](#)
- On Enlightning, Whitney Lee welcomed Lian Li to show how to **develop applications natively for Kubernetes using DevSpace**, an open source tool recently donated to the CNCF. [Watch the video](#)
- John Funk, Jahnavi Stenflo, and Chris Losacco presented this webinar about how organizations can maximize success of cloud native technology adoption by creating **modern training programs and a culture of learning**. [Watch the webinar](#)

## **Additional articles**

(for those that would like to know more)

- Josh Long wrote a paper packed with all the details developers need to know about the new **AOT engine in Spring Boot 3**. [Read the white paper](#) | Social link: <https://dy.si/BzNio>
- Josh Long wrote about the **beauty of Kotlin** and shared some of his favorite **DSLs** in the world of Spring. [Read the blog](#)
- In this talk, Christian Wimmer talks about adopting **GraalVM native images** in your applications and seamlessly transitioning to Spring Native. [Watch the video](#)
- On the newest episode of a Bootiful Podcast, Mahmoud Ben Hassine chats with Josh Long about the latest in **Spring Batch**. [Listen to the podcast](#)
- Josh Long did his part to keep the passes updated on the latest **Spring news** with his weekly roundup. [Read the list](#)
- In this episode of Spring Office Hours, Dan Vega and DaShaun Carter talk about **Spring Academy!** [Watch the episode](#)
- Dario Villadiego announced the news that **VMware Application Catalog now supports Google Artifact Registry**. [Read the blog](#)
- In this presentation, Heidi Waterhouse explains how to **work with (not against) your compliance and security teams to reduce risk** with progressive delivery, safety rollbacks, delivery testing, and release workflow management. [Watch the video](#)
- In this Enlightning episode, Whitney Lee and Alice Wasko talk about **Emissary-ingress, a self-service API gateway** that provides ingress for organizations that need to get external traffic into their Kubernetes clusters and to the right services. [Watch the video](#)
