

# Vanguard Community

# Hump Day Highlights

A weekly recap of Tanzu content - 3/29/23

## Top 5

(for those that prefer a synopsis)

- **Coding for the future of U.S. national defense** by Hock Tan. [Read the article](#)
- The **Tanzu Labs team has created several Miro templates** to improve team communication and product workflows. Evan Prowse compiled six of them into this roundup. [Read the blog](#) | Social link: <https://dy.si/yDjAG>
- In this webinar, Corey Dinkens and Scott Rogers show how **Tanzu Mission Control supports platform teams** with infrastructure automation and package management with support for Terraform, GitOps, and Helm. [Watch the webinar](#)
- This **VMware Tanzu performance validation reference architecture** focuses on benchmarking the cluster operations and applications on Tanzu Kubernetes Grid on VMware vSphere. [Read the white paper](#)
- In this video, Thomas Vitale shows how to **use open source tools to design a paved path to production** with a superior experience for developers while giving operators flexibility and control. [Watch the video](#)

## Additional articles

(for those that would like to know more)

- Josh Long announced a **new consumption pricing plan for Azure Spring Apps**, now available in public preview. [Read the blog](#)
- Whitney Lee and special guests Lewis Denham-Parry and Zack Newman *enlighten* viewers on how the **Sigstore project** is working to make more secure software with **digital signatures**. [Watch the video](#)

- In this Spring Tip, Josh Long sits down with Marcus Hellberg to talk about the **Vaadin Flow library**, recently updated for Spring Boot 3, about how it will make you perpetually happy. [Watch the video](#)
- Greg Turnquist announced the release of new query parsers that will make it easier to **customize queries in Spring Data JPA applications**. [Read the blog](#)
- Maciej Walkowiak walks through the new additions, improvements, and deprecations in **Spring Cloud AWS 3.0**. [Watch the video](#)
- On a Bootiful Podcast, Josh Long talks with longtime **Apache Tomcat contributor Mark Thomas**. [Listen to the podcast](#)
- On Between Chair and Keyboard, Nate Schutta sits down with **Corneil du Plessis**, a software engineer, architect, and organizer of the Jozi-JUG. [Watch the interview](#)
- This sponsored post by Diego Lapiduz explains how a **DevSecOps platform can build trust in your software supply chain**, and how to shift security left without disrupting your developers' flow. [Read the blog](#) | Social link: <https://dy.si/DIEH632>
- David Ansari explains how the new **Native MQTT allows connecting millions of clients to RabbitMQ** and opens the door to a broader set of IoT use cases. [Read the blog](#)
- In this webinar, Sala Muthukrishnan shows how **Unified Analytics** can help leverage data-driven insights to power strategic decision-making. [Watch the webinar](#)

## Tanzu Product Releases

Product Name	Version	Release Date	Related Links
